From Our Family To Yours ...

What Is Comfort?

Dominick Fuel is a “comfort company.” But what is comfort, really? If it means staying warm in winter and cool in summer, then we can definitely do that. But comfort is also a state of mind — a feeling of relief, ease and satisfaction; of being free from anxiety. And *that*, perhaps even more importantly, is what we at Dominick Fuel can bring into your life.

As your full-service dealer, we provide timely automatic delivery, around-the-clock emergency burner service, premium heating and cooling equipment, expert installations and repairs, a choice of maintenance plans, our 12-month EZ Pay budget plan, online bill payment and much, much more. We also have fixed price and capped price programs available — in addition to market pricing — so you can choose what’s right for your budget. If you would like more information on price protection, please visit www.dominickfuel.com or call our office.

Take a look at this newsletter and discover what we can do this spring to bring more comfort to your life. In all we do, we strive to make a “Dominick Difference.”

Sincerely,

The Dominick Family

Take Control of Next Winter’s Heating Bills Now – with a Budget Plan

With energy prices expected to remain volatile, wouldn’t it be nice not to worry about your heating bills when they’re at their peak by signing up for our EZ Pay budget plan in May?

It’s easy ... just visit our Web site, www.dominickfuel.com, where you can read about all the advantages of EZ Pay and sign up with a few quick clicks of your mouse!

With a budget plan, **you know exactly how much you are going to pay each month.** To determine your monthly payments, Dominick Fuel examines your past fuel usage and forecasts next year’s fuel costs, which we divide by 12. If you use less fuel than we’ve estimated, we’ll apply the difference toward next year’s plan. If winter is colder than expected and you end up using more fuel, we’ll work with you to readjust your installments.

Take advantage of this convenient way to manage your annual heating bills and enroll in EZ Pay now by going online to www.dominickfuel.com or calling our office.

Upgrading – It Just Makes “Cents”!

\$500 DISCOUNT WHEN WE REPLACE YOUR BOILER OR FURNACE BY 6/30/08!

Sooner or later, you are going to have to replace your heating system. **If your current boiler or furnace is over 15 years old, there can be cost advantages in upgrading to a new, high-efficiency unit** — after all, it is the most important piece of equipment in your home.

Upgrading a system more than 15 years old could produce significant fuel savings and a positive return on your investment. For instance, if your current boiler has an efficiency rating of 60% and you plan to install a high-efficiency unit rated at 85%, you’ll **save up to 40% on fuel bills, and could realize a payback in 5 to 7 years.** Go for the highest efficiency possible; with today’s rising energy prices, the most sensible investment any homeowner can make is one that pays a dividend through greater efficiency.

Why burn money, literally, when you could be enjoying the benefits of a clean, quiet, comfortable modern Oilheat system. Give us a call for an installation of new, efficient equipment from our full line of quality boilers and furnaces.

MENTION THIS ARTICLE WHEN CALLING FOR YOUR INSTALLATION AND RECEIVE \$500 OFF!
